

KSIS Notification: Alternative Education Program Report Card 2011-2012

	Notification: Alternative Education Program Report Card 2011-2012
From	Conner, Dede - Director, Division of Enterprise Data
To	All State KSIS Contacts
Sent	Thursday, January 31, 2013 4:09 PM

KSIS Points of Contact:

FYI - the email below was shared with District Assessment Coordinators and School Report Card Contacts today. Alternative Programs will be added to the 2011-12 School Report Card.

From: Roberts, Jay - Division of Assessment Design and Implementation
Sent: Thursday, January 31, 2013 2:04 PM
To: All State District Assessment Coordinators; All State Report Card Contacts
Subject: Alternative Education Program Report Card 2011-2012
Importance: High

Dear District Assessment Coordinator and School Report Card Contact,

703 KAR 5:240 Section 4 (c) calls for the Kentucky Department of Education to create and make available annual report cards for Kentucky's alternative education programs. Regulation specifies that the "alternative education programs reports shall outline the unique features and characteristics of the alternative education program and the appropriate uses and limitations of the data."

KDE is requiring this card for the first time in order to report data from the **2011-2012** school year. The cards will contain profile information on the individual alternative education program, data available from student assessment (tested students only), and text explaining:

- The purpose of the program
- Eligibility criteria, as appropriate
- Process for entering students into the program
- Process for transitioning students out of the program
- Composition of the team to develop the ILPA

Attached is a list of active 2011-2012 alternative education programs. **If your district does not support one of these programs, this task is not for you!**

This e-mail is being sent to both the District Assessment Coordinator list and the School Report Card Coordinator list so that the district can determine the most appropriate person to enter the required information in the School Report Card Data Collector at <https://applications.education.ky.gov/login/> . The person entering the information will need an ID and Password to the KDE secure application and rights to the School Report Card Application. The District WAAPOC can supply both the ID and Password and the rights to the School Report Card site. The district will have a text box limited to 1000 characters in which to provide the information required above. This text box is located at the bottom of the School Identification page in the School Report Card Collector. Please check the data fields on this page and make certain that the school identification data are correct **as of the 2011-2012 school year**. In filling in the text box, MANY years of experience with these boxes suggest that you create the text in Microsoft Word, with the character count feature in operation and, when the text meets your approval, cut and paste it into the application. Be sure to save the text and the School Identification Page!

This information must be entered into the SRC Collector by close of business **February 15, 2012** or the Alternative Program report card will contain only the following generic statement for the school:

"Alternative education program" means a program that exists to meet the needs of students that cannot be addressed in a traditional classroom setting but through the assignment of students to alternative classrooms, centers, or campuses that are designed to remediate academic performance, improve behavior, or provide an enhanced learning experience. Alternative education programs do not include career or technical centers or departments.(KRS 160.380)

We will provide secure access to the updated School Report Card site preloaded with all available test scores for district review the week of February 18. KDE plans on releasing the Alternative Education Program Report Cards to the public before the end of the month of February, 2012. If you have any questions or concerns, please contact Jay Roberts at jay.roberts@education.ky.gov.
